For a cricket fan, England is an irresistible destination! Our English & Cricket programme offers you the chance to develop your English, improve your cricketing skills and discover the country where the sport was born. You'll make friends from around the world as you discover amazing places on weekly trips, take part in fun and dynamic English lessons, and socialise during evening activities.

The cricket programme includes training sessions with a professional coach who will develop your skills in batting, bowling and fielding. You'll also cover fitness training and sports science. One of the highlights of the week is the chance to play a match against a local junior team from England. Also, on certain trips you'll have the option to visit a famous cricket ground for an additional fee.

Our aim is simple - to give you an experience that you will remember for the rest of your life, as a tourist, a language learner and a cricket lover! Let's hit this summer for six!
