

# Environmental Policy

At the Lewis School of English, an environmental policy is in place that follows sound practices aimed at helping to protect our planet.

## Here are some of the ways we help our environment

- We separate and recycle paper, cardboard, cans, cartons and glass and have clearly marked rubbish bins for staff and students
- We have light sensors in common areas to reduce electricity wastage
- We use LED bulbs
- We have installed secondary glazing in front facing windows to reduce noise pollution and improve insulation
- We use environmentally-friendly cleaning products
- We use recycled photocopy paper
- All our electricity comes from sustainable energy sources
- It is our plan to go solar

## Here are some ways you can help our environment

- Place recyclable materials into the correct bin in the coffee room
- Turn off lights and fans if you are the last to leave a classroom
- Do not leave taps running unnecessarily
- Avoid printing whenever possible and recycle scrap paper
