

School Productions

Unite your entire school with a full-length musical!

We come to you!

Any age

Any language level

As many students as you want!

The performing arts are an excellent tool for allowing students to express themselves, develop their critical thinking skills, enhance self-confidence and improve the life skill of improvisation. When working on a piece of theatre, students are exposed to various situations, cultures and experiences which enable them to grow not only as performers but also as individuals. Working towards a theatrical performance requires discipline, commitment and teamwork, all of which will help your students with their ongoing development.

Our team will come directly to you, to work on a show that you choose, for as long as you want!

Our School Productions are designed for success and ease, with everyone given a chance to shine. A lead cast will hold the essence of the story allowing for younger students to provide supporting roles. The school will be split into groups so that each student has adequate time with their performing arts teacher to learn the story and their individual role. Sessions will be spent working on characterisation, learning songs, performing dance routines, developing theatre techniques and stage acting. Structured rehearsals, repetition, ongoing support and guidance will ensure that students feel empowered and confident performing on stage together in English.

Scripts are created based on the ages, interests and language levels of your students. We can create an adaptation of a well-known story, or something completely original. We can follow your curriculum to help students bring their classroom learning to the stage!

Taking part in a school production offers a unique learning experience for students to practice their English and work as a team towards a common goal. Throughout the project students will develop and improve their:

- Language and speech skills
- Self-discipline
- Empathy for others
- Team work
- Confidence
- Self-expression
